Work Experience

○ **Netsoft Consulting Services Pvt. Ltd.**   *Jul 2009 - present*
                                                 12 Years
Full Stack Developer

[09-2018 to Present] as a Full Stack Developer. At present I am working with a Japanese company called **Bitgrit**. Here I updated my skills and self learned a lot of new technologies. Developed an AI competition and recruiting platform for data scientists. Successfully hosted competitions for NASA, DataGatway, CTRL F, Atrae, SoftBank, Klimazone etc. We are developing a comprehensive online ecosystem, centered around a blockchain-powered AI Marketplace. **Used Technologies:** Python, Django, Flask, Docker, Nginx, Jenkins, Redis, IndexedDB, MySql, Google-Cloud-Storage, Sentry, Browser Fingerprint, Git, Sendgrid, Segment, Stickler-ci, SonarCloud Code Analysis, Bootstrap, Jira etc. URL: https://bitgrit.net/

[02-2016 to 08-2018] as a **Sr. Web Developer and Project manager**. Worked on many web applications including government projects also. Out of witch few of them are:
http://www.fmsflearningsystems.org, http://hydrology-project.gov.in/, http://www.nhp.mowr.gov.in/, https://www.icisa.cag.gov.in/, http://cpaschooloflearning.org/, Etc Used Technologies: Dot net, C#, SQL Server, JS

[07-2015 to 02-2016] as a **Sr. Web Developer**. Developed a platform for digital light weight content viewer for jaypeedigital portal. With this one can read, create sticky notes, share notes, bookmark any content online. Just like PDF Viewer, but here we had used XML contents to render on viewer. **Used Technologies:** Dot net, C#, JS, XML, XSLT, DTD

[05-2012 to 06-2015] as a **Web Developer**. Developed a portal for jaypee brother medical publishers to provide online subscription based content access of books. This was ideally used by medical professionals like doctors and students and libraries. URL: https://www.jaypeedigital.com/ **Used Technologies:** Dot net, C#, SQL Server, JS

[07-2009 to 04-20012] as a **Web Developer**. Worked for 2 portals of medical publishers. The portal was specially designed for doctors, medical students. The objective of these portals was to sell hard copies of books online. http://www.jpmedpub.com/, https://www.jaypeebrothers.com/ Used Technologies: Dot net, C#, VB, SQL Server, JS, CCAvenue payment gateway integration.

○ **Bluekans Information System Pvt. Ltd**   *Feb 2008 - Jun 2009*

Web Developer   *1 years*

Worked as a web developer and created few websites for company and clients. My main role was to gather requirement from clients, intial design and development.

Key Projects / Involvements

Here are few projects url:

- https://bitgrit.net
- https://www.jaypeedigital.com
- http://jpmedpub.com/
- http://www.nhp.mowr.gov.in/

Summary

A Full Stack Developer with around 12 plus years of experience. Invoked in Python, C#, Django, Flask, Docker, Nginx, Jenkins, MySQL, Redis, GCP, Git etc. I design and develop web applications using the latest technologies to deliver the product with quality code.

Technical expertise

Python	▬▬▬▬▬▬▬
Java Script	▬▬▬▬▬▬
HTML	▬▬▬▬▬▬▬
CSS	▬▬▬▬▬▬
Jenkins	▬▬▬▬▬
Django	▬▬▬▬▬▬
Flask	▬▬▬▬▬
React	▬▬▬▬▬

Skills / Exposure

Nginx   Jenkins   Docker   GCP   Redis

C#   jQuery   Redux   sentry   Stickler

google-cloud-storage

Methodology/Approach

Component based architecture

Agile methodology   API Development

MVC   Test Driven Development   CI/CD

Tools

Git   VS Code   Jira   Slack

SonarCloud Code Analysis   stickler-ci

Education

MCA - Computer Science
IGNOU   Jan 2006 -Dec 2008

BCA - Computer Science
IGNOU   Jan 2003 -Dec 2005
